**September, 2008**

## **W-M CONNECTION**

Support for the athletic historic project came from an unusual source recently when we received a Charter Membership dues check from Doug Albertson. Albertson is the son of Springfield great Eddie Albertson of the Western Minnesota League Springfield Tigers and the high school basketball coach there. And thanks to Ed Tauer for giving us a boost in Springfield information.

Doug said he respected the efforts being made on preserving athletic history in this area even though at this point Springfield will only be indirectly be involved through games against New Ulm. He currently lives in Apple Valley and realized the importance of having history of a by-gone era preserved. The nomination of his father to the Minnesota Amateur Baseball Hall of Fame was augmented with information preserved by CRT, Inc., and the Springfield Historical Society.

In sending his membership for the inaugural year of CRT, he commented, "I hope others may be encouraged so that eventually a special section on the Western Minnesota League can be created" he said in encouraging CRT, Inc., to give some thought to a sub-site y "before it is too late."

## **LIST KEEPS GROWING**

Just about everyone I've explained the project to has been enthusiastically supportive and is encouraged to become a charter member. Doug Albertson, above, became the 300<sup>th</sup> name on our mailing list which now goes to 224 via email. At .42c each, that's a savings of \$94.08 each issue of the NewsLetter or other communications.

**Charter members:** please consider contacting one individual to become a \$25 dues paying charter member. You have the rest of October to bring in one new charter before our first annual meeting when we probably will discontinue designating any additional charter members. A charter member is recognized as a person very interested in New Ulm athletics, is listed by name on our website as an "original builder", will receive a special certificate and other privileges to yet be determined. One recommendation to our board will be to grant the charter membership in the name of both spouses in the permanent record and for future memberships. Later each spouse would have to buy a separate membership. That's a good way to recognize how much work the "other" puts in supporting local athletics.

## **SITE IS EXPANDING**

Our website is "live" although the material currently on the site is meant only to protect our interests in the domain (or ownership) of the site. [www.newulmsportscentral.com](http://www.newulmsportscentral.com) or [www.newulmsportscentral.net](http://www.newulmsportscentral.net) will reach the site. A few older and random pictures were uploaded as well as the names of the site "builders", those people who are charter members. Recently we've moved files the NewsLetters (1-4) to the site in keeping with our desire to make CRT, Inc. a transparent, membership friendly organization. Future newsletters will be sent in text

fashion in the email with a notice that the fancier, more involved newsletter can be viewed or printed off from the website. A notice how to become a charter member will remain on the site until the annual meeting.

**VFW CONSIDERING**

We thank the VFW for hearing out our program and request for support at a recent meeting. Several charter memberships resulted from that session. The question of financial support was tabled for later consideration.

**SCANNING RECIPES**

Jim Aufderheide has done a great job in writing the "recipes" for the procedures on how digital scanning of "objects" will be done on our good scanner. He covered the areas of positive prints, film black/white negatives, color film, slides and documents. Once the data entry "program" is ready, we can start accepting the help of volunteers to do routine scanning and data entry. In the meantime, working with test objects indicates we have much research to do from microfilm or newspaper bound volumes, scrapbooks, etc., to authenticate dates and information.

**GERMAN STUDENTS**

A group of German students are attending South Central College and have arrived in time to get to New Ulm for last weekend's Oktoberfest. Hopefully one or two will be assigned to our project to begin the development phase of the data base system.

**WISH LIST**

There are a number of items some of our business friends, etc., may be able to help us with so we can conserve our limited resources. We are starting a "wish list" as follows. We plan later to prioritize the list on a regular basis.

We could use: 4-drawer standard file cabinet. Special "check file" cabinet with drawers divided to appx. 6x9 sections. With the electronic systems, we believe there are a lot of those no longer in use. They make excellent photography negative files for the old 2x2 and 4x5 film. Another specialty cabinet with appx. 13" wide drawers divided in two to store our collection of 4x5 community news negatives. Computer desk, prefer with rollers. Printer for digital scans and work orders. Used hanging file folders for standard and legal size file cabinets. Heavy duty three-hole punch. Work organizer buckets, regular or legal size. Small rolling stand for work organizer, printer. Office chair for computer work station.

**TIME IS COMING**

We are concentrating on the data entry and photo and document scanning procedures. The time is coming when volunteers can begin to assist this work. But we do note that there will be lots of data that should be secured from the newspaper hard cover volumes or microfilm. This isn't difficult, but if this work interests you, please contact us. We've got some material that you can get started with. So far involves, New Ulm and Minnesota baseball and Searles and Hanska stuff.

**The charter membership drive concludes Oct. 31. Join and if you have already become a member, recruit one new membership. To become a charter member simply send a \$25.00 for 2008 due to CRT, Inc., 1435 10<sup>th</sup> S. St., New Ulm, MN 56073.**

***To unsubscribe to email, contact address at top of first page. Since our website is nows operational on a limited basis, will post the newsletters and other information to the site. . However, we will use regular or e-mail to alert the membership to the postings. To-date 74.7 percent of our mailing list is e-mail orientated.***
