Table organized 2010 by New Ulm Sports Central is based on earlier records compiled by Carl Wyczawski, former sports editors of New Ulm Journal and schools and enhanced with additional information provided to New Ulm Sports Central by John Vetter and the compilation of the leading NUHS scores developed by Wczawski. The 1,000 point club was originated by Journal Sports Editor Herb Schaper to recognize the records established by Jon Hagen of Belview and has become a national bench mark for high school and collegiate basketball scoring records. Records of others were initiated after the Hagen information became publicly recognized.
